Professional Summary

Frontend Developer with a foundational degree in **Mathematics (Helwan University)**, specializing in translating complex **Figma designs into responsive, high-quality web interfaces** using **React 19, Next.js 16 (App Router), TypeScript, and Tailwind CSS**. Experienced in developing scalable, reusable frontend components, optimizing UI performance for speed and scalability, ensuring cross-browser and mobile responsiveness, and seamlessly integrating with RESTful APIs. Passionate about mathematical problem-solving, clean code architecture, and modern web design systems.

Education

Bachelor of Science in Mathematics, *Helwan University*

10/2024
Cairo, Egypt

Technical Skills

Languages

JavaScript (ES6+), TypeScript, HTML5 Semantic Markup, CSS3, SQL

UI & Styling Frameworks

Tailwind CSS v4, Bootstrap, CSS3 Modules, Radix UI Primitives, Responsive Web Design, Mobile-First Layouts, Accessible UI (ARIA)

APIs & Tooling

RESTful APIs Integration, TanStack Query Cache Hydration, Git & GitHub, Automated Testing (Jest), Vercel Deployment

Frontend Core

React 19, React Hooks, Next.js 16 (App Router, Server & Client Components), Redux Toolkit, TanStack Query (React Query)

Figma & Design Engineering

Figma-to-Code Translation, Design System Tokens, Pixel-Perfect Layouts, Cross-Browser Compatibility, Recharts Data Visualization

Engineering Projects & Experience

Inventory Management & Analytics Dashboard , *Next.js 16, TypeScript, TanStack Query, Tailwind CSS, Recharts*

- Accurately translated Figma design specifications into a high-performance, mobile-responsive dashboard using Next.js 16 and Tailwind CSS with cross-browser fidelity.
- Developed reusable UI components and debounced search across 1,000+ records, integrating RESTful APIs with TanStack Query prefetching to eliminate layout shifts.

Devfolio AI — Engineering Showcase & Architectural Assistant ,

Next.js 16, React 19, TypeScript, Tailwind CSS v4, Jest, MongoDB

- Architected an accessible, reusable component library with Radix UI primitives and Tailwind CSS v4, adhering to strict design tokens and ARIA standards.
- Integrated REST endpoints with an abstracted LLM gateway using Strategy and Factory design patterns, verified by 14 automated Jest unit tests.

Real-Time Team Chat & Collaboration Platform , *React, Redux Toolkit, Node.js, Express, MongoDB, Socket.IO, JWT*

- Engineered responsive, mobile-first messaging interfaces with real-time room broadcasting, typing indicators, and optimistic UI state updates via Redux Toolkit.
- Implemented stateless JWT authentication using secure HTTP-only cookies and protected Express middlewares to prevent token exfiltration.

Hotel Management & Operations Dashboard , *React, Supabase (PostgreSQL), React Query, React Hook Form, Recharts*

- Built interactive booking reservation workflows with strict client-side form validation, modal confirmation flows, and responsive occupancy rate analytics.
- Integrated RESTful Supabase queries with declarative Row Level Security (RLS) policies, ensuring robust error handling and smooth UI states.
